

先由圖固定兩力方向，再比較量值

$$M = 4M_{\oplus}, R = 2R_{\oplus}$$
$$g/g_{\oplus} = 4/2^2 = 1$$

$$E = 5.0 \text{ N/C 向上}$$
$$q = +2.0 \times 10^{-9} \text{ C}$$

$$F_{\text{net}} = 2.0 \times 10^{-10} \text{ N}$$

方向向上
