

和差角公式的單位圓推導：弦長算兩次

$$\text{距離公式：}\overline{PQ}^2 = 2 - 2(\cos A \cos B + \sin A \sin B)$$

$$\text{餘弦定理：}\overline{PQ}^2 = 2 - 2\cos(A - B)$$

$$\Rightarrow \cos(A - B) = \cos A \cos B + \sin A \sin B$$
